

## Attention Law Enforcement:

J.J. Johnson - Posted: 03.20.00

This is a battle that does not need to be waged in a federal courtroom. This is one that should be fought on the streets. Please do not waste your resources fighting this. We speak from experience. Simply get all the local rank-and-file together and have them sign the following:

Attention: Federal Law Enforcement – Columbus District

In light of the fact that many of our rank-and-file may find themselves defendants of federal civil rights lawsuits, we, the undersigned, have decided that it is in our best legal interest to not take any further actions that may be harmful to our case(s).

Therefore, we will no longer assist in the execution of any federal warrants within our jurisdiction. Nor shall any of our officer-members offer cover, accept perimeter assignments, or file reports to your agencies. These may all be considered potential civil rights violations.

Furthermore, we will be rigorously enforcing all traffic codes within our jurisdiction – especially toward federal law enforcement. Keep this in mind when in hot pursuit of the perpetrator you'll have to chase (since you won't be receiving local assistance.) We certainly do not want to give federal officers any privileged treatment that we would not give regular citizens. Equal rights under the law, you know!

Also take note that as peace officers, we have the right to enforce federal laws within our jurisdiction. Any officer (regardless of jurisdiction) found in violation of Title 18 of the U.S. Code will be subject to arrest and immediate incarceration.

Sincerely,

Columbus P.D.

Sign this, and hand deliver it to the FBI, ATF and all the rest of the alphabet-soup gang.

And that lawsuit will suddenly vanish – we guarantee it.
